

1000+™ and water – kind to your skin
and safe on fabrics!

Simple to Use

- Step 1:** Apply a small amount of 1000+™ Stain Remover directly to stain. Allow to soak in.
- Step 2:** Rub the stain with a wet cloth, scouring sponge, or fingertips. Blot to remove excess product. Add water and continue rubbing. (Water is important in order to lift the stain and carry it and the 1000+™ solution away from the surface being cleaned). Blot again with dry or damp cloth. Repeat if necessary.
- Step 3:** Rinse liberally with water. Wipe away excess moisture with towel or cloth.

Tips

- A scouring sponge, towel or spray bottle are the only tools you need
- 1000+™ works best with water
- Use full strength for stains or diluted with water for multi-cleaning
- Try a 10 to 1 mix of water and 1000+™ in a spray bottle!

Reach for the Solution. A thousand uses!

**SUPER CONCENTRATE
for EXTRA VALUE**

Add 1000+™ to water in a spray bottle for a superior all-purpose spray!

WOW!
**Makes up to
20 Bottles!**
