

FOR STAINS!

Remove Paint, Wine, Pet Messes and much more from Upholstery, Carpet, Clothing and many other surfaces!

1000+ USES

CONCENTRATED FOR SUPER VALUE
909 mL (30.7 fl. oz)

Hello South Africa! Winning Colours® Stain Remover is a new cleaning solution that does much more than ordinary products – and is very kind to your skin!

Popular uses: Paint spills and messes (latex, oil or spray), laundry detergent booster, wine spills, pet messes, artist's supplies, car and truck detailing, hands and skin, blood, markers and ink, lipstick, nail polish, shoe polish, grease, scuff marks, label residue, loosening chewing gum, coffee marks, children's toys, sports gear and boats, and many others. Ideal on most carpet, clothing, upholstery, bed linen, table cloths, kitchen and bathroom surfaces, in the home, office, factory and recreational settings where accidents happen.

Instructions: For stains use full strength: Apply a small amount directly to stain, allow to soak in. Rub with wet cloth, scouring sponge or fingers. Add water, rub more. **Rinse well with water and blot with dry or damp cloth to complete. Repeat as necessary.** Precaution: Use only on a surface that is water-safe (most surfaces). Paper, uncoated wood and sensitive wool carpet are examples that are not water-safe. If in doubt, try in an inconspicuous area.

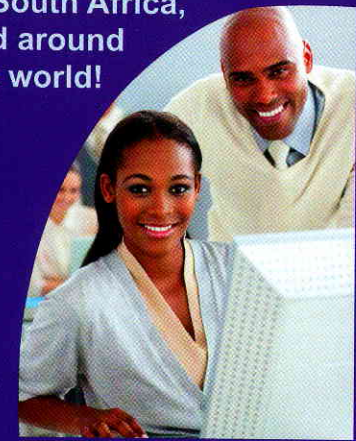

As Multi-Cleaner (Diluted): Winning Colours® Stain Remover can be mixed with water for general cleaning purposes to save money! Mix 1 part Winning Colours® to 10 parts of water or more, such as a few squirts into pail of water.

First Aid: Winning Colours® Stain Remover has been made bad-tasting to protect children and animals. If swallowed, give a glass of water and call a doctor. In case of contact with eyes, rinse with water.
